FREEDOM
BEGINS HERE

Perfect for two people, the Dreamseeker is also family friendly thanks to its spacious interior and versatile accommodation which sleeps up to five people. The compact size on the road means that you can take your tourer almost anywhere. Be adventurous and let your imagination lead the way. Everything about the Dreamseeker is British built and using 3D computer-aided design techniques is handcrafted to make it as accessible as possible.

BEAUTIFUL AND
DURABLE

As soon as you walk through the door, you'll notice that there is more room inside than its compact exterior dimensions might suggest. This is down to the innovative slide out which provides copious amounts of additional space in the living area.

There is an endless choice when it comes to the interior design. From selecting the type and colour of upholstery to requesting a home entertainment system complete with a large smart TV. The stunning interior is a masterpiece of contemporary design. It combines stylish design but also keeping practically in mind.
